

# CUT TO ORDER.

**SALZGITTER  
MANNESMANN  
STAHLSERVICE**

A Member of the Salzgitter Group

# WELCOME!

TO SALZGITTER MANNESMANN  
STAHLSERVICE.

We make targeted investments so that we can continually respond to customers' increasing requirements in terms of quality and special sizes. Our modern machinery means that we always offer you the best possible level of flexibility. In addition to customised cutting geometries we now also produce multiple cuttings from large coil widths – exactly according to your specifications. Our use of top-quality materials combined with our professional service provision makes us the ideal choice for any tasks.

Renowned customers from a whole range of different sectors value Salzgitter Mannesmann Stahlservice GmbH as a professional partner for supplying high-class materials which have perfect surface qualities. Together with Salzgitter Flachstahl we offer you an extremely wide range of products and services. As a specialist in overcoming unique, specific challenges we can find the best way to satisfy the greatly increased requirements relating to quality, material behaviour and costs. Besides this comprehensive service, our incorporation in Salzgitter AG also provides the security of a group which operates on a worldwide basis.

**Your team at Salzgitter Mannesmann Stahlservice**

# WE OPERATE THROUGHOUT EUROPE.

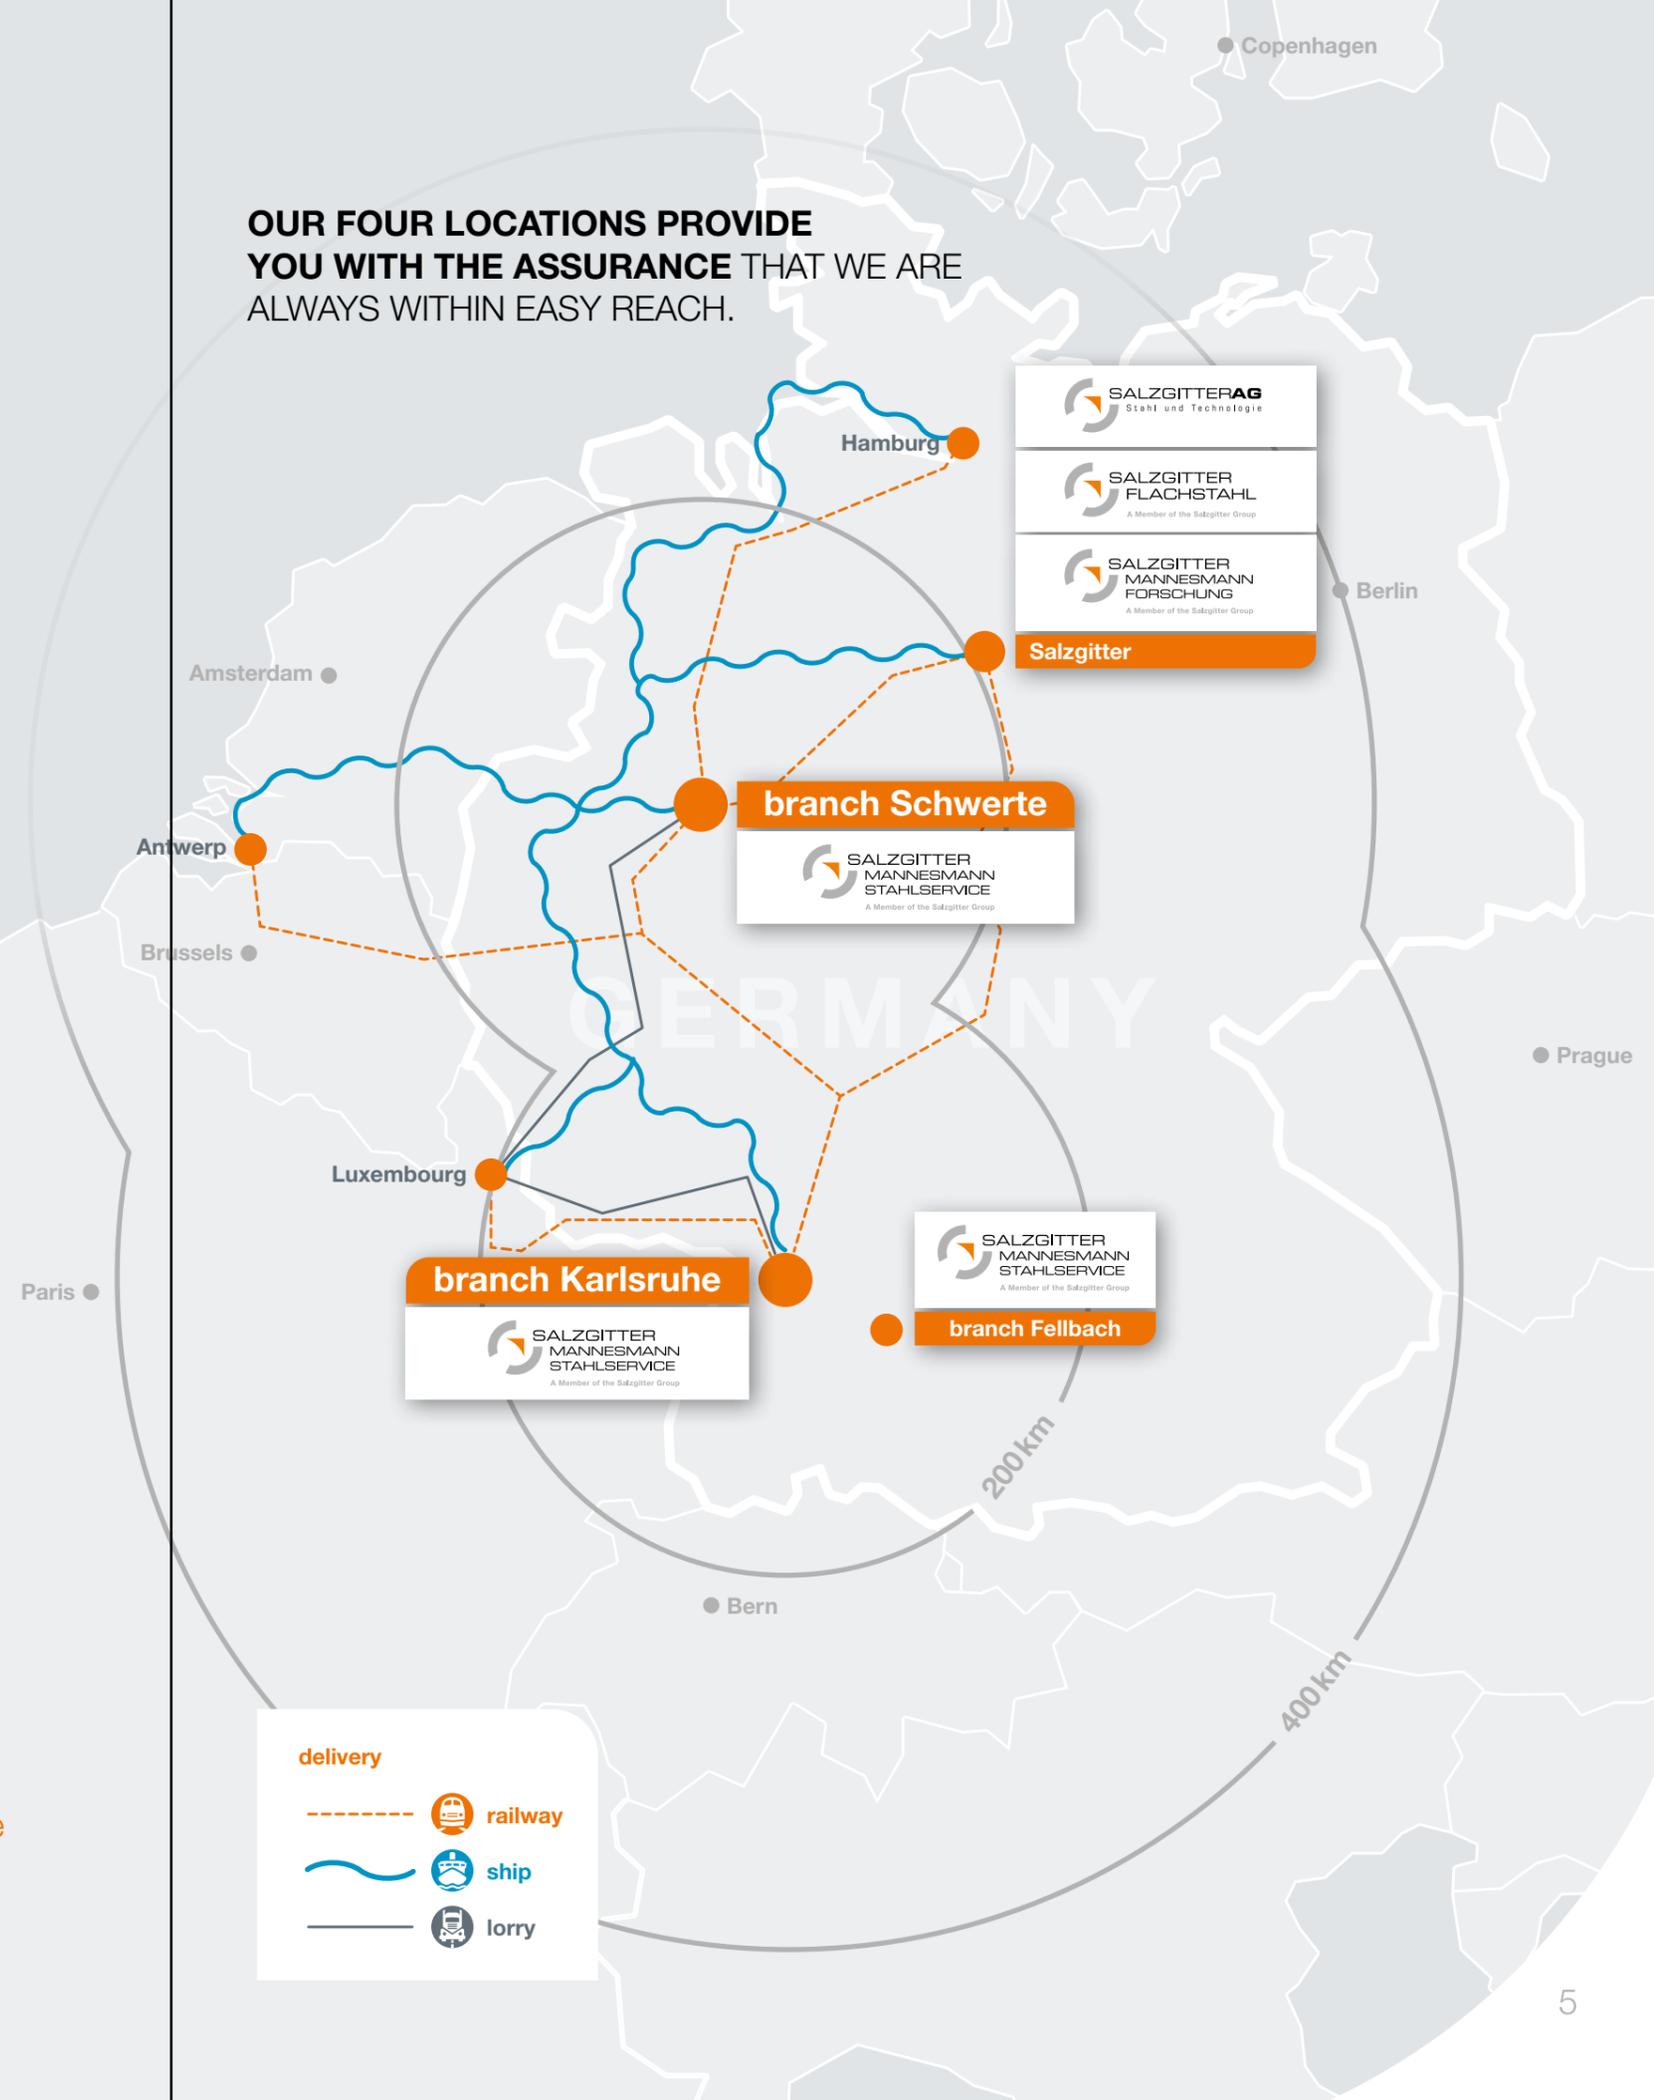

## AND WE PROVIDE A LOCAL SERVICE FOR YOU IN GERMANY.

Being close to our customers and providing efficient, well thought out logistics is not just the philosophy behind our day-to-day operations, it's also a decisive locational advantage for us as a successful group.

The special precision of our strip processing makes us a strong partner as the steel service specialist within the consolidated Salzgitter Group and for a wide variety of sectors in Germany and Europe. We are well positioned in relation to the steel processing centres and superbly organised throughout Germany with our group headquarters in Salzgitter incorporating Salzgitter Flachstahl and with our two steel service centres in Schwerte and Karlsruhe. Of course, we also have a presence in all the major neighbouring countries. This geographic proximity guarantees quick responses and efficient processes, and it provides advantages in terms of logistics collaboration – important success factors which also provide benefits for our customers.

“To ensure on-time supply from our factory in Salzgitter or from other steel manufacturers we use all forms of transport – inland waterway as well as rail and road.”

OUR FOUR LOCATIONS PROVIDE YOU WITH THE ASSURANCE THAT WE ARE ALWAYS WITHIN EASY REACH.

# A FOCUS ON QUALITY.

OUR HIGH STANDARDS PAY OFF.

An important success factor for us and our customers is the excellent quality of our products and services.

The close cooperation between our two steel service centres and Salzgitter Flachstahl provides you with high-quality products that are renowned in the industry for their excellent properties. This focus on quality also defines how we see ourselves. From the initial consultation and efficient work processes through to on-schedule delivery, our customers sense how closely all our employees identify with their jobs. A customer-orientated approach, strict quality assurance, and a flexible response to your requests ensure efficiency that is among the best in the German market.

**OUR EMPLOYEES ARE COMMITTED  
TO CONTINUOUS IMPROVEMENTS  
AND THE EFFECTIVE USE OF RESOURCES  
ON A DAILY BASIS.**

# OUR PRODUCTS.

OUTSTANDING QUALITY FOR  
ANY REQUIREMENT.

**AT [WWW.SALZGITTER-SSC.DE](http://WWW.SALZGITTER-SSC.DE)**  
WE PROVIDE YOU WITH INFORMATION  
ABOUT OUR COMPANY'S COMPLETE  
PRODUCT RANGE.

Our extensive range of products and services provides you with a variety of first-class materials including all the common grades, dimensions and surfaces. You can rely on perfection in terms of material properties and precision in terms of surfaces and dimensions – whether the products you need are hot-rolled, cold-rolled, surface-treated, or plastic-coated.

#### **Multi-format plant with electrostatic oiling**

Rectangles, trapezoids, rhombuses, triangles and parallelograms for the most demanding surface requirements

- Thicknesses from 0.5 to 3 mm
- Widths from 400 to 2,150 mm
- Aluminium machining
- Organically coated special panels

#### **Multi-blanking line for special panels produced through multiple cutting processes:**

- Simultaneous cutting to length and slitting
- Blanks in up to 3 widths
- Most exacting surface requirements, in particular in the case of organically coated material
- Material thicknesses from 0.35 to 3.0 mm
- Finished material widths from 400 to 2,150 mm
- Section lengths from 350 to 4,500 mm
- Ultimate precision combined with maximum flexibility

#### **Slit strip**

- Thicknesses from 0.4 to 12 mm
- Strip widths from 20 to 2,000 mm

#### **Panels and blanks**

- Thicknesses from 0.5 to 16 mm
- Widths up to 2,200 mm
- Lengths up to 22,000 mm

#### **Additional machining options**

- Rerolling
- Levelling
- Winding
- Rounding

**Of course, you can also request our wide range of services on a contract work basis.**

OUR BASIC PRODUCTS CAN BE FOUND IN MANY AREAS OF DAILY LIFE, FOR EXAMPLE IN CARS AND OTHER VEHICLES, IN HOUSEHOLD APPLIANCES, IN BUSINESS AND SHOP FITTINGS, OR IN THE FURNITURE INDUSTRY.

# PRODUCT DIVERSITY. OUR WORLD IS MADE OF STEEL.

HOT-ROLLED · COLD-ROLLED  
HOT-DIP GALVANISED  
ELECTROLYTICALLY GALVANISED  
COIL COATED · STRONSAL®  
ZINC MAGNESIUM COATING  
HOT-DIP ALUMINIUM COATED/

Assemblies, clutch parts, packaging, office furniture ...

Whether it's tried and tested products or innovative solutions, our group offers an extremely versatile range of certified steel for any requirement. Our high flexible steel grades provides a tailor-made solution for any end product – in industry, but also in our own homes. Thanks to our close cooperation with Salzgitter Flachstahl and other suppliers, we find the most suitable material for your chosen application whatever it may be. You can rely on our know-how and expertise as a developer.

# FLEXIBLE CUTTING.

IN EUROPE'S MOST UP-TO-DATE  
MULTI-BLANKING LINE.

Our new multi-blanking line at our Schwerte location provides even greater flexibility and speed for carrying out your production orders.

Making ourselves even better for our customers – that's what spurs us on every day. A state-of-the-art multi-blanking line makes Schwerte our centre of excellence for sheet steel blanks. Here Europe's most up-to-date multi-blanking line sets new standards for the prompt, efficient completion of manufacturing orders. The combined cutting/slitting unit enables up to three different widths of blanks to be produced exactly according to your specifications. In order to meet the most exacting surface requirements we process cold-rolled sheet steel and organically coated or surface-finished steel from coil widths of up to 2,050 mm. Naturally according to the renowned high-quality standards of our company. A state-of-the-art levelling machine ensures absolutely precise measurement of the dimensions and the evenness of the sheet steels.

“The new multi-blanking line provides us with optimal supply flexibility for meeting increasingly exacting requirements in terms of quality and special dimensions.”

# CUSTOMISED. EVEN BETTER ORGANISED WITH NEW TEAMS.

**CONCENTRATED KNOW-HOW AND  
TAILOR-MADE SERVICE CONCEPTS**  
MAKE US EVEN FASTER, BETTER  
AND MORE CUSTOMER-ORIENTATED.

Our recipe for success: every customer has a competent point of contact who is supported by a project team with a variety of specialist expertise.

Steel service demands professionalism and in-depth consulting expertise – and as in all other areas, we want to reinforce our leading position here. Our new interdisciplinary service teams include employees from different functional areas of the company depending on the task that is involved, so we bring together the best experts for you. Of course, this requires particularly competent and motivated employees. Our experts continuously participate in training activities within the Salzgitter Group to maintain their high levels of qualification. We pay particular attention to talented young people, whom we monitor and support in order to specifically prepare them for management activities in the future.

Whether it's conventional freight transport or digital data exchange – we focus on tailor-made logistics solutions.

As a strategic partner we consistently promote the digitisation of business processes – both internally and also in cooperation with suppliers and customers. We use intelligent networking and tailor-made IT solutions to support our customers with the optimisation of their process and supply chains and to improve their material flows. We hold customer-specific primary material and finished sizes in a warehouse with around 70,000 m<sup>2</sup> of storage space so that we are able to respond proactively to specific requirements. We use all three modes of transport so that materials arrive just-in-time: road, rail and water. Our sites are well positioned close to major motorway connections and there is also direct access to the canal network at the port in Karlsruhe. These logistics advantages enable our customers to improve their planning, make processes more efficient, and make production more cost-effective.

“Our customers expect perfect adherence to their specifications. One more reason for us to choose our logistics partners very carefully.”

# RELIABLE. EFFICIENT DATA AND MATERIAL LOGISTICS.

**COMPLETE TRAINS FROM SALZGITTER**  
DELIVER HIGH-QUALITY MATERIAL TO  
OUR SITES IN KARLSRUHE AND SCHWERTE  
SEVERAL TIMES A WEEK.

# POWERFUL. INNOVATIVE OPERATIONS THANKS TO STEEL WITH PERFECT PROPERTIES.

**SALZGITTER FLACHSTAHL IS OUR  
MAIN SUPPLIER** AND IT HAS A WORLDWIDE  
REPUTATION FOR ITS TECHNOLOGICALLY  
ADVANCED STEEL PRODUCTS.

Our customers benefit from the research and development work carried out by all partners within the group.

The proven quality of our products and services is sustainably strengthened by the close cooperation within the group. Salzgitter AG is one of the most traditional German companies and is one of the leading steel and technology groups in Europe. Salzgitter Flachstahl is very innovative in the development of new materials that have been optimised for the particular application. If necessary, we can take advantage of the extensive know-how of experienced materials and applications engineers at any time in order to find exactly the right solution for your needs. Intensive research and development cooperation with Salzgitter Mannesmann Forschung GmbH and experts from industry and science make us a dependable partner for long-term planning and cooperation.

## The automotive initiative of Salzgitter AG

As a competent partner for leading-edge materials, we develop innovative concepts for the automotive industry of tomorrow in close consultation with our customers. We present impressive ideas, solutions and applications for the automotive industry on our internet platform [www.initiative-automotive.de](http://www.initiative-automotive.de).

# TESTED QUALITY.

OUR STRENGTH IS YOUR  
COMPETITIVE ADVANTAGE.

**OUR WEBSITE** [WWW.SALZGITTER-SSC.DE](http://WWW.SALZGITTER-SSC.DE)  
INFORMS YOU ABOUT OUR COMPANY'S  
CURRENT CERTIFICATES.

## TESTED QUALITY.

OUR STRENGTH IS YOUR COMPETITIVE ADVANTAGE.

**We guarantee the superior properties of our products through continuous quality assurance.**

Excellent flatness, extremely low-stress characteristics and the narrowest dimensional tolerances – you can fully rely on the precision of our products and services thanks to the uncompromising quality that every single employee brings to his work. We work with strict, fully integrated quality management systems in accordance with ISO 9001:2015 and ISO/TS 16949:2016 which are always up-to-date thanks to follow-up audits. Our sites in Karlsruhe and Schwerte have state-of-the-art laboratories for mechanical and chemical testing, and they monitor every individual processing step from the receipt of materials through to despatch. All processes are clearly formulated and are consistently implemented on a daily basis in order to give you a decisive advantage in the market.

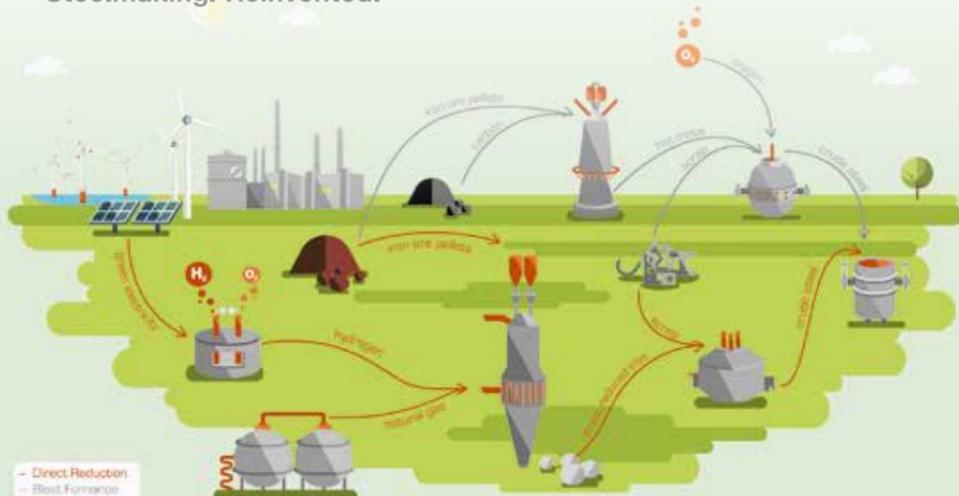

“I’m the last person to see the customer’s material before it leaves our service centre. So I check all the details again carefully.”

## OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT.

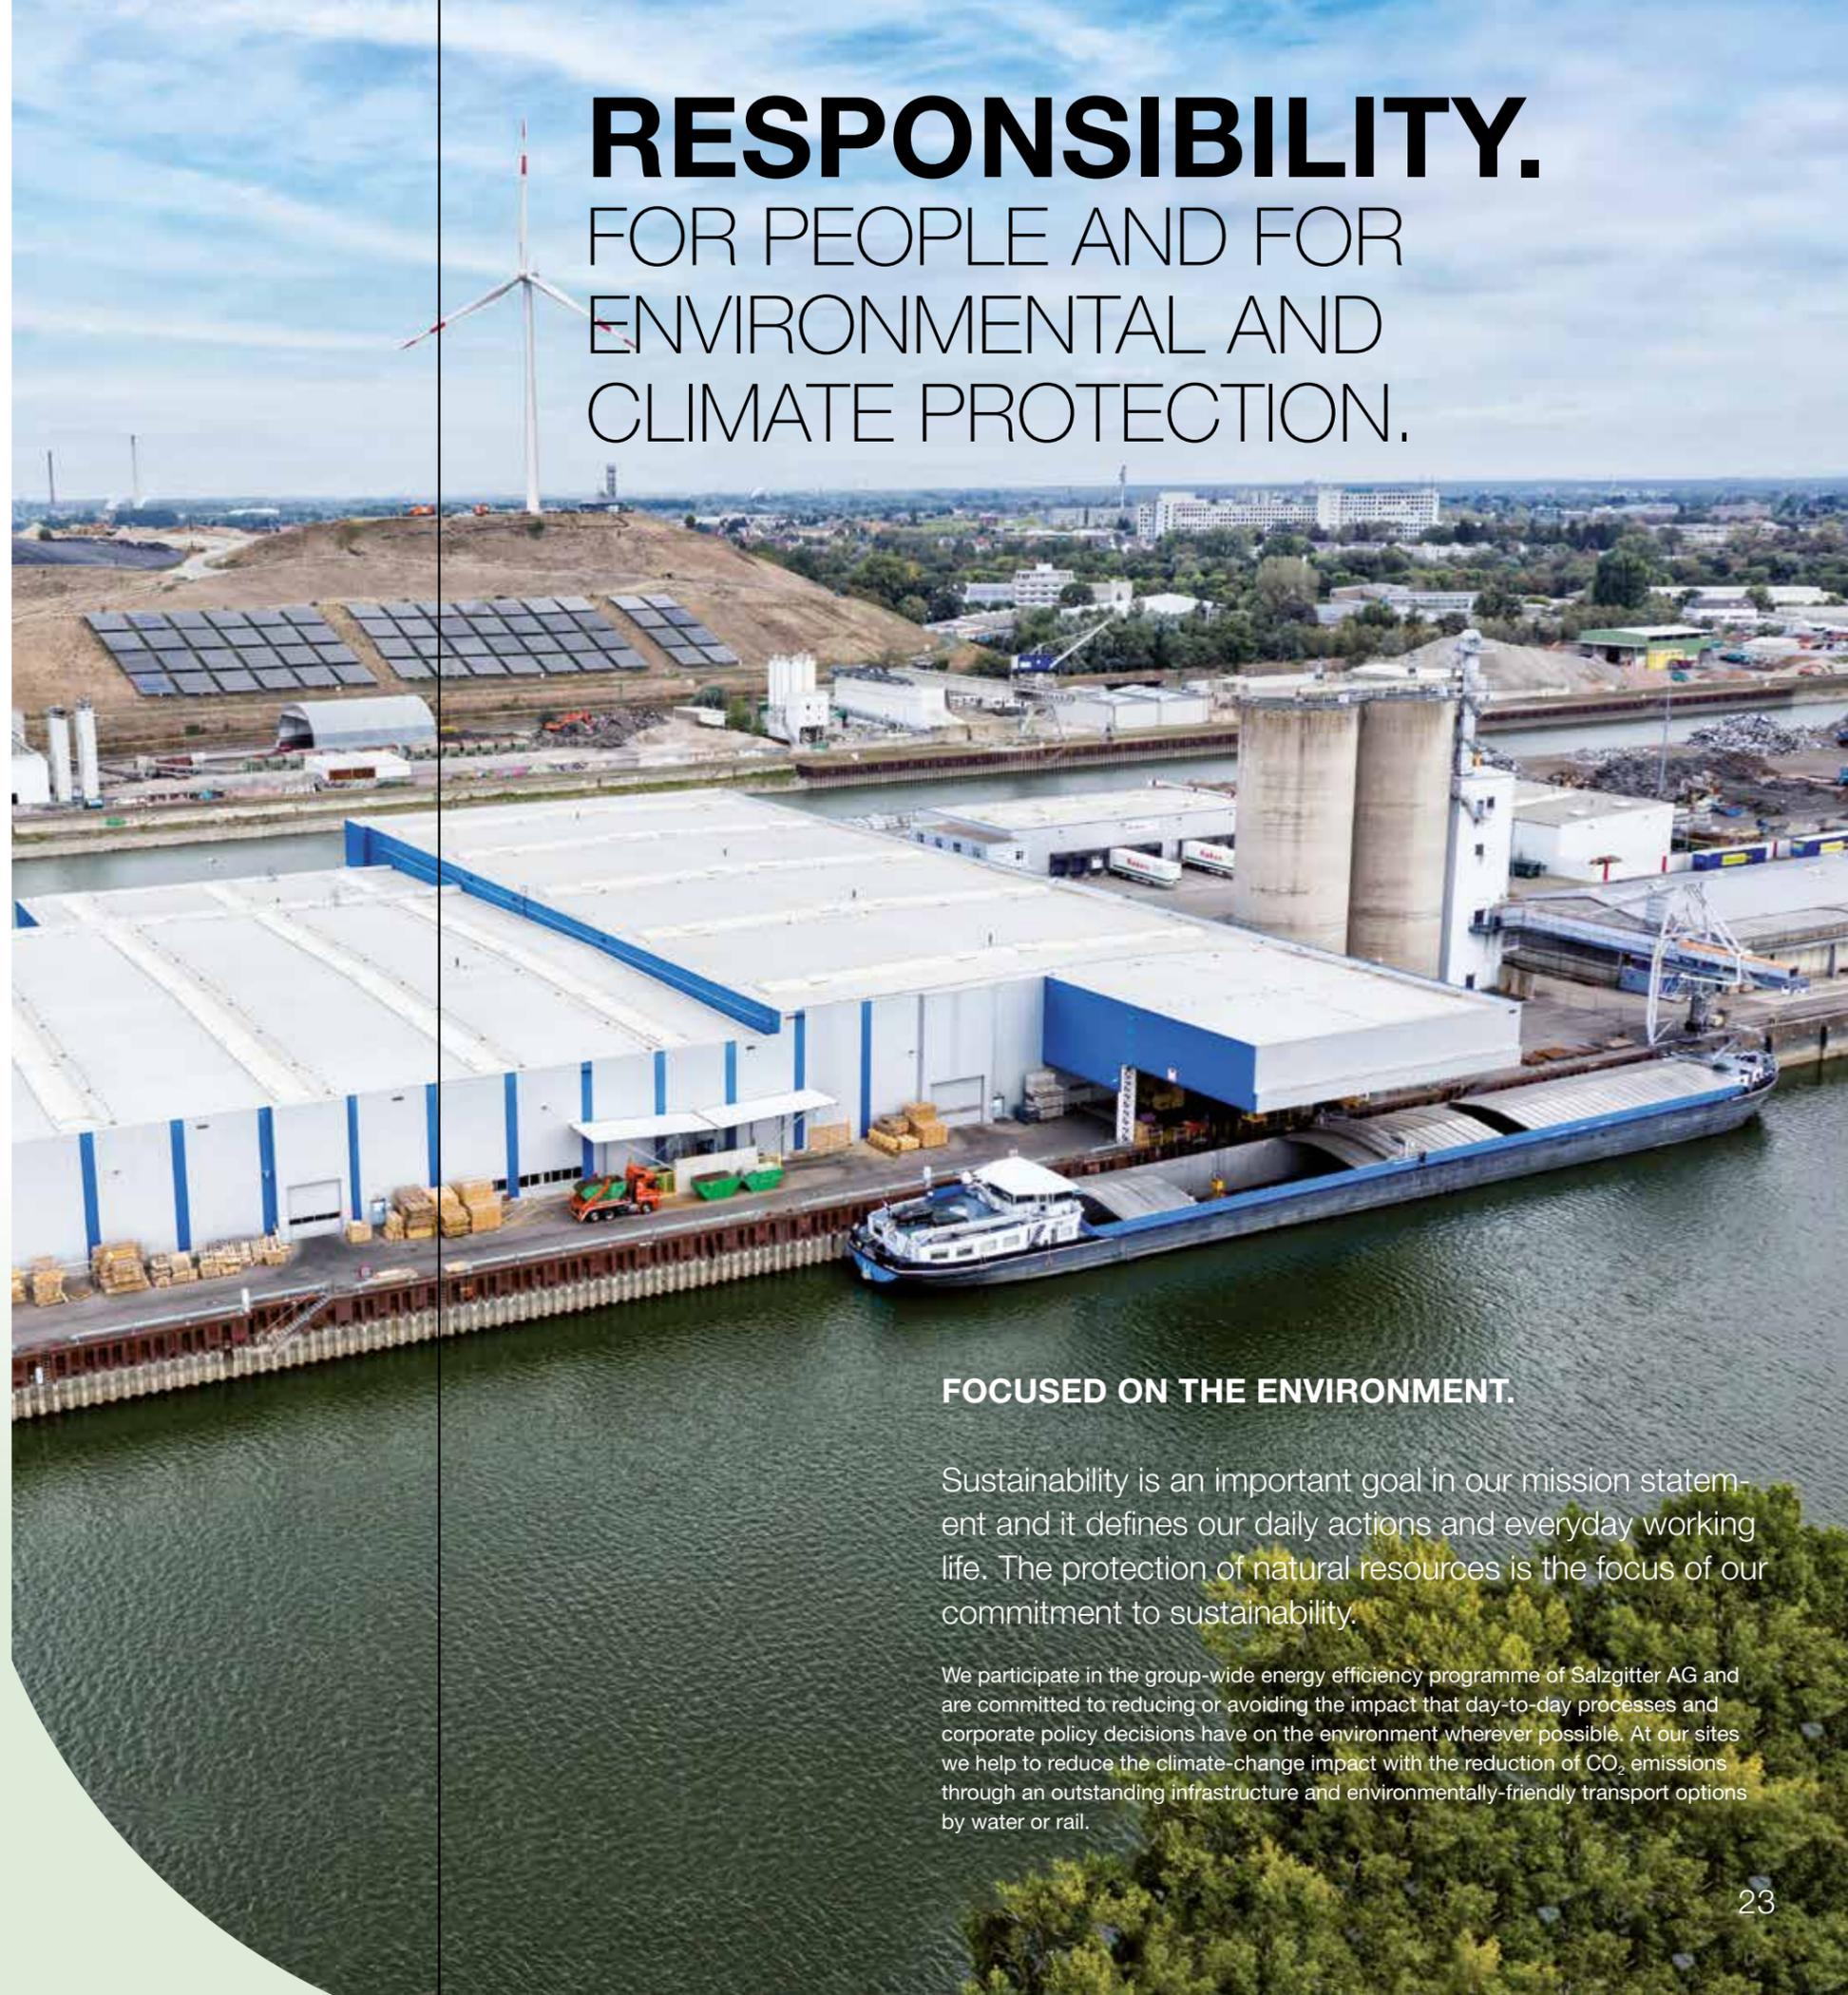

As a responsible employer we are committed to taking comprehensive preventive measures to ensure the best possible working conditions and levels of health and safety. The intent and purpose of occupational health and safety management is to protect the life and health of our employees from danger in both day-to-day operations and beyond.

The wellbeing and health of our employees is a top priority for us. Comprehensive preventive measures maintain a high level of occupational safety. Our comprehensive engagement in the subjects of health and safety offers a wide opportunity to our employees. They receive a chance to learn about health and healthy living as well as to take advantage of activities to promote their own health.

# RESPONSIBILITY. FOR PEOPLE AND FOR ENVIRONMENTAL AND CLIMATE PROTECTION.

## FOCUSED ON THE ENVIRONMENT.

Sustainability is an important goal in our mission statement and it defines our daily actions and everyday working life. The protection of natural resources is the focus of our commitment to sustainability.

We participate in the group-wide energy efficiency programme of Salzgitter AG and are committed to reducing or avoiding the impact that day-to-day processes and corporate policy decisions have on the environment wherever possible. At our sites we help to reduce the climate-change impact with the reduction of  $CO_2$  emissions through an outstanding infrastructure and environmentally-friendly transport options by water or rail.
